CREATIVITY IS THE REAL *intelligence.*

[THE RULE] · SINCE 2003

AI is the engine. That's it. The idea is still the smartest thing in the room.

HEAD DOWN. *Horn up.*

23 years. Three continents. One rule. From Leo Burnett São Paulo to Wunderman Thompson, Edelman and now Head of Creative at Think Human in Dubai, I build work that wins the boardroom before it wins the jury.

I mute the noise and chase the signal: the real problem behind the brief, and the number it has to move. I hire the personality and train the talent. I pick the right fights, sometimes with clients. They love it.

And I put AI where it belongs. **AI is the engine. I'm the creative intelligence.** The engine does the miles, I pick the road. Cheaper, faster, never the idea.

THE UNSTAINABLE THOBE

The real brief was never ketchup. It was the white thobe. So we made one ketchup can't touch. The GCC ate fearlessly.
